The Challenge of a Smaller World

Live content
maximizes
engagement,
but the market is
in a recession.

**There is no
trusted way yet**
to sell mobile
tickets only to
the right people.

Web2 oligopoly
extracts all value
from mutually
created content
at margin cost.

Platform

NFTs + Social Context = Tickets

Any ticket represents the right to access a certain excludable good or service. They are indivisible and may be personalized.

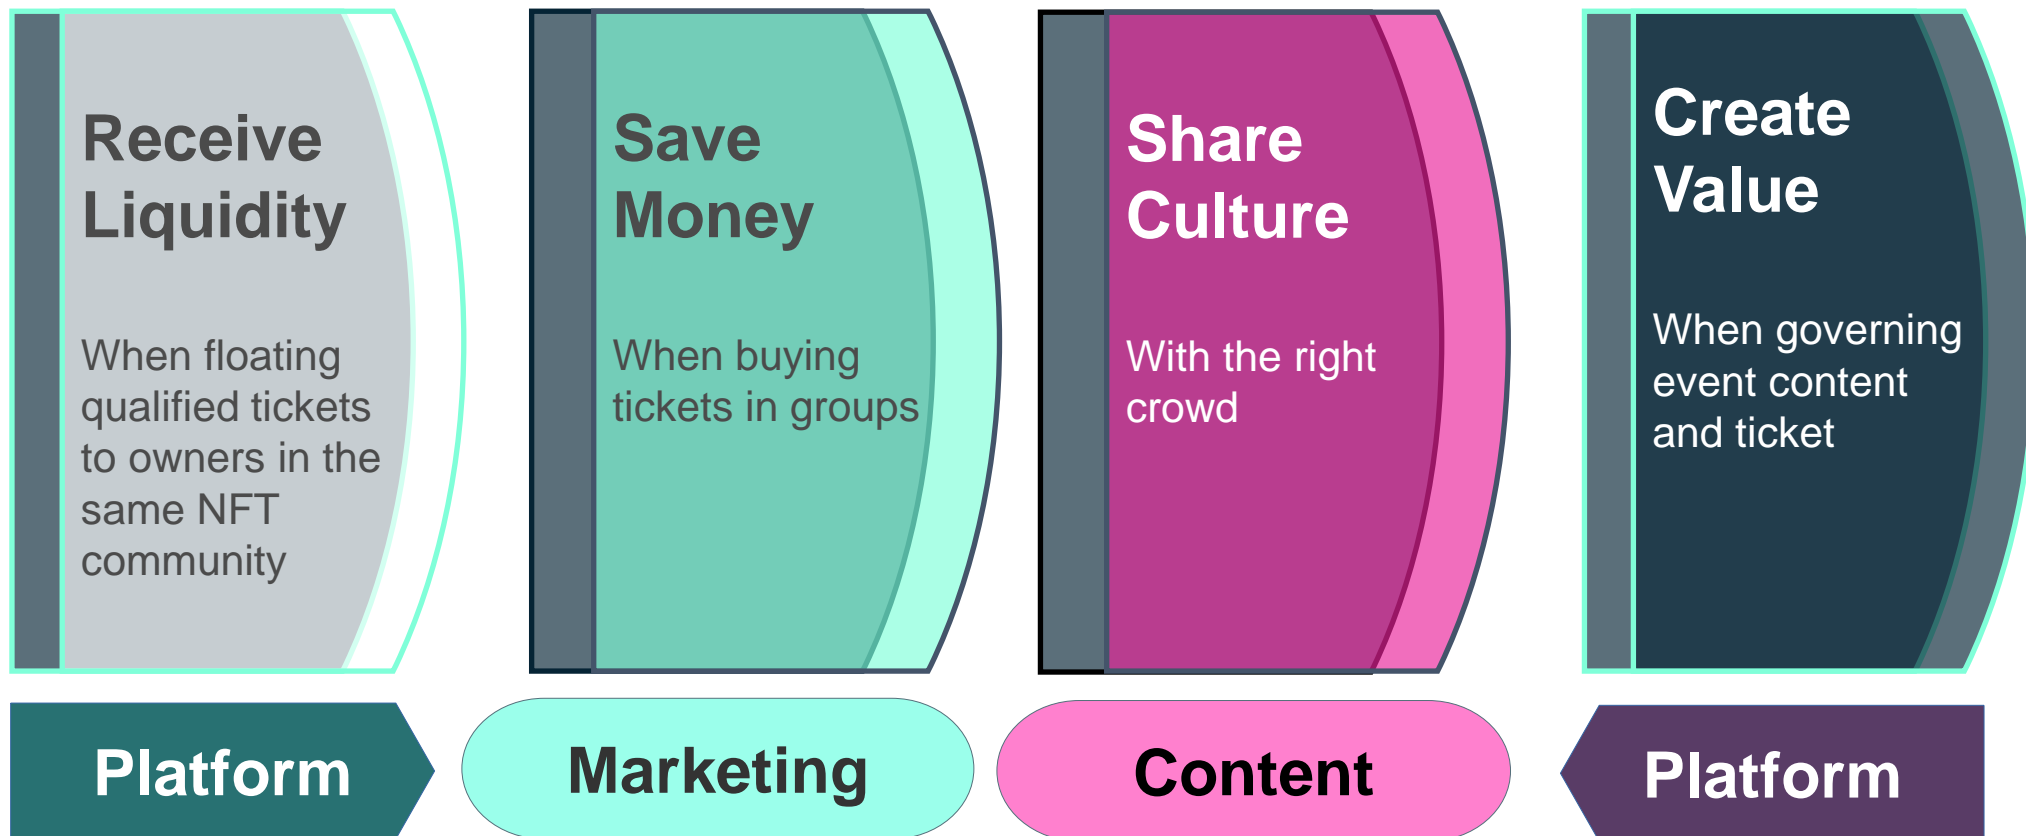

Everyday Assets

- non-rivalrous (e.g. music played from a speaker)
- or rivalrous (e.g. seats at the cinema).

Tickets create value added on both ends!

The Solution

A Web3 Platform to Float Tickets in NFT Communities!
